NUTRIENT PAMPHLET: Culinary I

Directions: You will be creating an informative, neat, attractive pamphlet about a nutrient. Listed below are the guidelines.

- The pamphlet must be **factual** (you must research your topic).
- You will work in pairs only.
- The paper must be set up as a pamphlet, size 12 font, Times New Roman or Comic Sans MS. To set up your paper in pamphlet format, open Word, Click NEW, Choose Brochures & Booklets in the templates, open the Brochures folder and select your template.
- There must be some design feature. (pictures/graphics)
- Include a recipe representing an excellent source of this nutrient.
- Information must be organized to entice the reader to want to learn about the nutrient
  - Include a listing of foods high in the nutrient.
  - Why do we need this nutrient? What function(s) is this nutrient needed for?
  - What happens if a person doesn’t consume enough?
  - What happens if they consume too much?
  - Please write it in your own words—otherwise it’s called plagiarism.
  - You must CITE your sources in MLA format.
- We will, as a class, spend one or two class periods in the library. This will be the class time allowed for you to gather your information from the internet or resource books in the library. This will also be your opportunity to use the computers to type your information.
- To be fair we will be randomly selecting topics.
- Work turned in late will receive points off each day that it is late.
- Revisit the rubric often since that will direct your grade.
- Each partner must verify his/her contribution to the pamphlet.
- **REMEMBER SPELLING AND GRAMMAR DO COUNT!!!**
- Don’t forget to SAVE your work.
